

Get Multi-Layered Email Protection

 No Virus |  No Spam |  No Junk emails

With plethora of emails pouring in every day, invariably your corporate mailbox gets filled with junk, spam mails and of course the dangerous virus. It's time you protect your business from these threats with

Emergic CleanMail (ECM). It ensures unsolicited mails are filtered before they enter your systems, besides scanning for viruses by triple level anti-virus Technology. In fact, India's many leading companies prefer Emergic CleanMail for their protection.

Client Quote

“Implementation of Emergic Clean mail has resulted in blocking spam & virus very effectively. Web-based reporting feature in ECM helps in analysing statics & taking action. Linux based solution & less hardware resources has resulted in lowered total cost of ownership.”

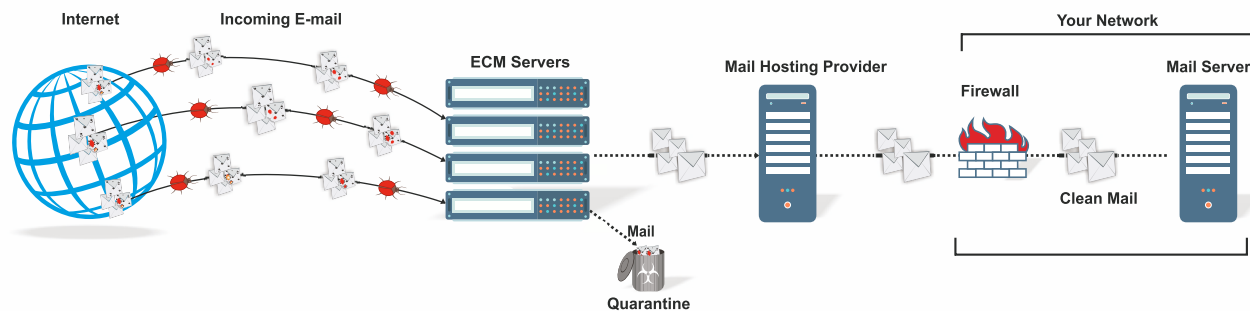

Srinivasan, GM - Systems

Key Features

- Triple-level Virus Scanning
- Multi-layered Spam protection
- Personal Spam Manager & Spam Digest
- Dashboard: In-depth Reporting
- Inbound content and Attachment filtering
- Disaster Recovery Spooling
- Load balanced email delivery
- Domain Specific White and Black lists

Benefits of a Managed Service

- No hardware or software required
- Zero Startup cost
- No installation or maintenance hassles
- No staff training is required
- Saves Internet Bandwidth and Storage
- Safety queues email if your server is down
- Platform independent / works with Lotus Notes, Microsoft Exchange and Linux
- Low Total Cost of Ownership (TCO)
